An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Claim 23 has been amended to read as follows:

23. An optical waveguide system or a structure or part thereof according to claim 19, wherein the polycyanate copolymer is obtainable by copolymerization of at least one difunctional cyanate of formula II, at least one monofunctional cyanate of formula I, and at least one dicyanate having formula III; wherein at least one of the cyanates of formulas I to III, as defined above is brominated with the proviso that the brominated cyanates of formula I may be free of fluorine.

In claim 24, the word "monocyanates" following the word "brominated" has been changed to "cyanates".

Authorization for this examiner's amendment was given in a telephone interview with A. Hartmann on Nov. 10, 2003.

The following is an examiner's statement of reasons for allowance: The claims differ from the Papathomas and Murray references by using the fluorinated monocyanate of formula I in the polycyanate copolymer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
